- Node / PHP / ASP.net
- Git / NPM / TFVC / SVN
- Photoshop / Illustrator

EXPERIENCE

RIDGEWOOD ASSOCIATES | LAS VEGAS, NV

APR 2014 - PRESENT

Independent Developer & Business Owner

Software Development & Consulting Services

- Focused on launching micro-apps and services built on React, Node, Express & MongoDB.
- Developed asset pipelines and front-end build systems using Webpack, Gulp and Grunt.
- Worked with teammates remotely on React and Angular based projects in Node & PHP environments.
- Created interactive CLI utilities that automated data-mining, asset-scraping and DB population.

3RD LEARNING | BUFFALO, NY

FEB 2012 - MAR 2014

Senior UI/UX Engineer

Educational & Curriculum-Mapping Software

- Collaborated with educators to build web applications that helped support classroom teachers.
- Implemented and maintained front-end build operations by leveraging tools like Grunt, Sass and QUnit.
- Developed internal utilities that automated scheduling, reporting and other resource management activities.
- Conducted workflow and usability studies to guide product adaptation and feature enhancements.

HUGE | BROOKLYN, NY

MAY 2011 - OCT 2011

UI/UX Consultant

Digital Services & Commercial Applications

- Translated design comps into module and interface templates, interactive style guides and pattern libraries.
- Developed prototypes of native applications using Sass and jQuery to enable advanced interaction testing.
- Contributed to ongoing projects with remote team members using Git workflow and version control.
- Fulfilled new feature requests by performing targeted JavaScript and CSS enhancements.

UI/UX Consultant*eCommerce & Social Media Applications*

- Worked with high-end brands on cutting edge web, mobile and social media applications.
- Developed responsive websites with Mobile First and Progressive Enhancement style approach.
- Addressed cross-browser development issues using Modernizr feature detection and JavaScript polyfills.
- Created prototypes to convey advanced interface concepts and user interactions to stakeholders.

REDCATS | NEW YORK, NY**JUN 2008 - MAY 2010**

Senior UI Engineer*eCommerce & Content Management Systems*

- Collaborated with international teams to simplify purchasing operations and enhance product usability.
- Championed front-end build operations that automated client-side asset optimization procedures.
- Experimented regularly with new feature concepts, prototypes, case studies and user scenarios.
- Produced documentation that helped our team to normalize coding standards and styling guidelines.

MEDIA WHIZ | NEW YORK, NY**JAN 2007 - APR 2008**

Web Developer & Creative Designer*eCommerce & Marketing Applications*

- Developed rich, dynamic, and reliable client-side solutions using HTML, CSS and JavaScript.
- Built server-side modules using PHP and Smarty to automate business and reporting processes.
- Revamped websites by targeting bottlenecks and leveraging front-end libraries like MooTools and jQuery.
- Designed logos, interface templates and style guides with Photoshop and Illustrator.

DOOR 3 | NEW YORK, NY**JUN 2005 - NOV 2006**

Web Developer & Creative Designer*Corporate & Financial Management Applications*

- Developed websites and internal applications using HTML, CSS and JavaScript.
- Performed updates and optimizations on PHP and ASP.net back-end functionality.
- Designed site layouts, product features and workflows with Photoshop, Illustrator and Visio.
- Worked on-site with clients to build new features and enhance existing components.
